ABOUT US

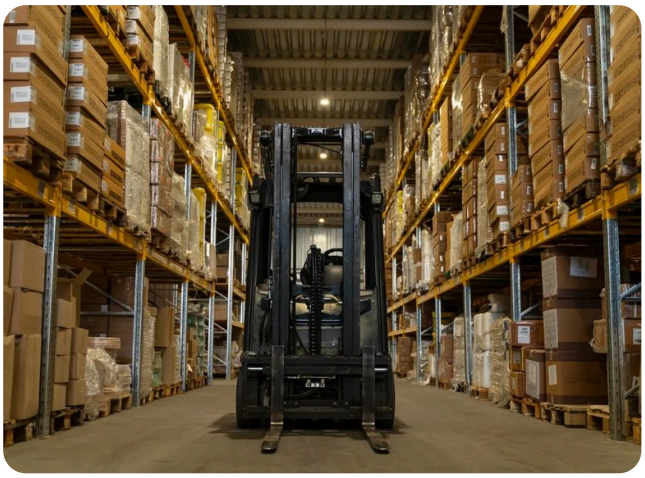

We source what is hard to find

At Usercare Medical, we are dedicated to providing our customers with top-quality medical equipment and consumables. We specialise in sourcing unique and hard-to-find products, so that our clients have access to the latest and most innovative medical technology.

OUR PURPOSE

We offer a wide range of products from leading manufacturers around the world. Whether you need medical equipment, surgical instruments or consumables, we have the products you need so that your patients receive the best possible care.

We believe in building long-term relationships with our clients. We provide exceptional customer service and support, and we are always available to answer your questions and give guidance on choosing and using products.

OUR MISSION

To save lives by providing our customers with the highest quality medical equipment and consumables, delivered with exceptional service and support.

OUR VALUES

Five values we work by

Quality

We are committed to providing our customers with the highest quality medical equipment and consumables.

Innovation

We keep looking for new medical technology and better products, so our customers get the latest that is available.

Customer service

We believe our customers are our most important asset, and we are dedicated to providing exceptional service and support.

Integrity

We conduct our business with honesty, transparency, and a strong sense of ethics.

Collaboration

We work closely with our clients and partners to understand their needs and develop solutions that meet their requirements.

OUR GOAL

To be the partner healthcare providers and facilities rely on, helping them deliver the best possible care to their patients.

We conduct our business with honesty, transparency and a strong sense of ethics, and we are dedicated to promoting sustainable practices in our business operations and in the products we sell.

OUR FOCUS

Ankaferd Hemostats

Ankaferd Hemostatic Products deliver rapid bleeding control through a unique mechanism of blood cell aggregation and protein network formation, independent of the conventional coagulation pathway. Effective even in patients with certain coagulation disorders, including haemophilia, Ankaferd offers versatile bleeding management across clinical, emergency and appropriate out-of-hospital settings, including road traffic accident emergencies. A valuable solution when every second counts.

Topical Gauze

Cuts, abrasions and external traumatic bleeding; first aid kits.

Ampule

Bleeding in dental surgery.

Spray

Burns, diabetic wounds and wide oozing wounds.

Push & Stop

Nose bleeds, deep external bleeds, dialysis catheter sites.

Absorbable Gauze

General, ENT, gastro, orthopaedic and trauma surgery.

Under 1 second
to haemostasis on external wounds

3 to 5 seconds
on surgical wounds

No cold chain
no special storage conditions

CE 1783
marked by the manufacturer

Figures as stated by the manufacturer. Ankaferd BloodStopper must not be injected into a vein or the blood circulation system.

ALSO FROM ANKAFERD

ANKAFERD PROTEOMIX

Ankaferd Proteomix is an advanced five-plant botanical extract with immunomodulatory, antioxidant, anti-inflammatory and antimicrobial properties. Preclinical research demonstrates anti-neoplastic activity, including inhibition of cancer cell growth and induction of programmed cell death (apoptosis) across several cancer cell types, including breast, colon, bladder, melanoma and haematological cancers.

ALSO SUPPLIED
